Hospital Renovations Almost Complete

The board of trustees of the Crowsnest Pass Municipal Hospital nodded its approval at the \$75,000 renovations that are now almost complete in the hospital after making a tour of the building October 16. Also added to the hospital equipment facilities was an additional \$65,000 equipment.

The extensive renovations which have been going on for the past year include additional bathroom facilities, all new kitchen and laundry room equipment, a new laboratory, bedside curtains for all beds, all new lighting, new paneling in rooms, solariums on both floors, and the operating and maternity areas have been completely renovated and have been equipped with air conditioning. New type modern lighting that arrived this week for patient rooms is to be installed in the rooms and wards.

During the meeting incumbent trustees John Ulrich of Blairmore and Joe Zemek, who were recently elected by acclamation for three year periods, were welcomed back

to the board. New committees will be formed at the December meeting.

Administrator Ernie Luini, Nursing Director Rina Rinaldi and four board members will attend the Alberta Hospitals Association convention scheduled to be held in Edmonton November 13-15.

Dr. Douglas Lilly of Mayo Clinic has been admitted to the medical staff of the hospital on a temporary basis while local doctors are taking vacations.

Hospital administrator Ernie Luini attended an advanced hospital administrator course held at the Banff School of Fine Arts from October 21-25.

Murphy Heads 'Pass Liberals'

Tuesday, October 8th, 32 people met in the Credit Union hall, in Blairmore, for the purpose of forming the Crows Nest Pass Federal Liberal Association. The drafting of a Constitution for the newly-formed organization took place and also the election of officers, which resulted as follows:

President, Benton Murphy, Lundbreck.

Vice-president, Frank Lamey, of Blairmore.

Secretary-treasurer, Victor Krzywy of Coleman.
Directors: Lud. Margotak, of Frank; Andy Russell, Waterton; T. J. Costigan, Blairmore; Gerald Makin, Hillcrest; Ken McDowell, Cowley, and J. W. Colwell, Coleman.

The gathering was addressed by Mr. Allan Sulatycky, M.P. for the Crow Foot riding, after which a short question and answer period was held, that proved to be interesting to all who attended.

Saturday Night Coleman Whist

Whist was enjoyed again in the club room of the Coleman United Church on Saturday, October 19th.

Winners were:

Men's first, Mr. Cyril Pitt; men's second, Mr. A. Mickels; men's consolation, Mr. L. McEwen.

Ladies' first, Mrs. Christina Pitt; ladies' second, Mrs. Vera Peragotti; ladies' consolation, Mrs. Helen Cardie.

Next whist night will be held on Saturday, November 2nd at 8 p.m.

We are not perfectionists — we just have fun and enjoy life.

Come join us where everybody is made welcome.

Night Courses In Schools

W. J. Ede, superintendent of schools in the Crows Nest Pass School Division, has announced plans are being completed to hold evening adult classes in various courses.

Any high school course will be offered if sufficient enrolment or interest is shown. Persons wishing to participate should contact Mr. Ede as soon as possible.

At present arrangements have been completed to offer ceramics, Music 10 (choral music), basic English, senior English at the Horace Allen high school in Coleman; plastics, physical education for ladies, typing, linguistics, senior mathematics at the Isabelle Selton high school in Blairmore.

Basic sewing and advanced sewing will be offered at the Isabelle Selton or Horace Allen high schools.

A survey of new mathematics, grades one to six will be offered at the M.D. McEachern school in Bellevue. The courses in ceramics, taught by Donald Deococo and the plastics course taught by Italo Bossatti, will be held each week for a total of 15 weeks at a cost of \$15 per pupil.

Curling Meeting To Be Called

New officers for the Coleman Curling Club this season are:

President, Joe Wavrean.
Vice-president, Joe Biegun.
Secretary, Betty Castellan.

Treasurer, John Kapellia.

An executive committee is to be appointed at a later date.

A general meeting is to be called to discuss opening of the curling rink and plans for the coming season.

Remembrance Day, Mon., November 11

Armistice Service to be Held

Coleman Legion has announced that Remembrance Day Services will be held November 11th.

A parade will form at Central school grounds at 12:45 p.m. and will march off at 1 p.m.

The parade will proceed west up second street to McDonald's corner.

er, turn south to main street, and then turn east and march down the main street to the Roxy Theatre.

Special Memorial Day services will be held in the theatre by Rev. Walter Krewski and Minister Peter Walker.

The Cadets and the Blairmore

Legion and Auxiliary Color Party will be in attendance.

Should weather be inclement the laying of wreaths will be done in the theatre, otherwise this part of the service will be held at the Legion Cenotaph in the town's Memorial Park.

Coleman Asked To Sponsor DDC Instructors

The Alberta Safety Council is seeking assistance from 50 Alberta towns and cities, including Coleman, in hopes of speeding up the growth of the Defensive Driving Course in local communities everywhere in this province.

Letters have been sent to 50 mayors and councils asking for help in locating and sponsoring men and women for training as Defensive Driving Course instructors. These 50 communities do not at present have DDC instructors available locally.

The safety council letter pointed out that 426 people died in Alberta traffic accidents last year. This was about 28 per 100,000 population. Another 9,000 were injured. This was one of the worst records by any province in Canada.

The letter went on to say that every community in the province helps pay for these accidents with the lives and health of their citizens. The price paid by communities was termed "an unspeakable waste".

The 50 mayors were asked to consider the costs of traffic accidents in another way, in terms of costs for more enforcement of traffic laws, or the costs of engineering better roads made necessary by traffic and accident increases.

The mayors were told that the costs of providing their citizens with an opportunity for driver re-education through the Defensive Driving Course were "almost nothing by comparison".

Specifically, the mayors and the councils were asked to select at least two people from each community for training as Defensive Driving Course instructors, and to pay the expenses for these two candidate instructors while on a two-day course either in Edmonton or Calgary.

In return, the safety council would undertake to provide the necessary course materials so that local Defensive Driving Courses could be put on this fall and winter. Dates for these courses would be worked out between the safety council, local organizers and the instructors.

The DDC Instructor Development Schools are being held in Edmonton on October 24 and 25, and in Calgary on November 14 and 15.

Further information can be obtained from the Alberta Safety Council, 10636 - Jasper Avenue, in Edmonton.

Councillors Are Sworn In

Incumbent Mayor John Holyk, who was returned to office by acclamation, incumbent Victor Krzywy and Peter Walker, elected to position of town councillors, were sworn to office at council meeting held this week.

A revamped business licensing by-law had its first reading. The new by-law makes a number of amendments with regard to charges and regulations.

Mayor Holyk will draw up and bring in his new slate of committees at the next meeting.

Peter Walker was appointed to public relations.

Life Membership Pins Presented

The United Church Women of St. Paul's United Church, met on October 21st with 16 members in attendance.

They witnessed the presentation of life membership pins and certificates to three of the church's most devoted and hard-working members — Mrs. Mary McKinnon, Mrs. Bella Rogers and Mrs. Mary MacQuarrie, all of Coleman.

Mrs. Rene Cover very ably made the presentations and read the special service asking that their example lead all to more consecrated service and deeper commitment in the work of the church.

Coleman Man Supervisor For CDA

OTTAWA—John Kenneth Swann, 57, has been appointed District Supervisor for Alberta for CDA's Poultry Division.

He moves to his new post in Edmonton from Kitchener, where he has been officer in charge of the sub-district.

He succeeds T. J. Adam, who has retired.

Born in Coleman, Mr. Swann obtained his BSA degree from the University of Saskatchewan, and worked for a few years for the federal Plant Products Division.

In 1944 he transferred to the Poultry Division as an inspector in Edmonton, became supervising field man at Regina in 1954 and officer in charge of the Saskatoon sub-office in 1962. Four years later he moved to Kitchener.

Mr. Swann is a member of several professional agricultural associations and is president of the Dominion Roller Canary Association.

By-Law Favored

The results of the Money By-Law voted on today for the new High School are:

	For	Against
Coleman	479	66
Blairmore	338	191
Bellevue	93	79
Mohawk	23	42
Hillcrest	79	36
Frank	25	19
	1037	433

New Equipment Arrives Here

Ernie Luini, administrator for the Crows Nest Pass Municipal Hospital, looks over the new Cardiac Arrest Equipment recently acquired by the local hospital at a cost of \$2900.

A portion of the cost in the amount of \$1,000 was borne by the Ladies' Auxiliary who made a donation to the hospital.

Since its arrival at the hospital Dr. Victor Martinez of Coleman, has been lecturing the staff of the hospital on the use of the machine.

Besides having a monitoring scope to check heartbeat during surgery, the machine has several other functions, including an electronic pacemaker for regulating heart beat and a defibrillator which is used to check fibrillating conditions of the heart.

Pass Legions Meet

Presidents and executive members of the three branches of the Royal Canadian Legion in Crows Nest Pass met in Coleman October 23rd to discuss club problems and inter-club relations.

Each branch will appoint a publicity man to pass on information to the news media in order that the general public be made aware of the activities in the Legion and what work the Legion is doing regarding aid being directed to needy veterans and their families.

Each branch will also appoint a special assistance officer, whose duties will be to look into and investigate the needs of distressed veterans and their families.

Zone Commander Harry Freeman of Bellevue, in present, and gave a resume of the recent district meeting held in Lethbridge.

Fire Fighters To Canvass For Muscular Dystrophy

From time to time you will answer the front door and find a fire fighter standing there. He's there to help you, to show you how to cut down fire hazards in your home. He does this by checking for frayed lamp cords, over-loaded circuits and improperly stored combustible materials.

Sometimes, however, the purpose of his visit will be quite different. On such occasions he will be asking for your help, not for himself, but for the many victims of muscular dystrophy. He will be asking you to contribute to the research funds of The Muscular Dystrophy Association of Canada.

The association campaigns for funds each year during the first two weeks of November. At that time men from between 500 and 600 fire departments make door-to-door canvasses throughout their communities. This year the MDAC target is \$700,000.

Canada's fire fighters regard MD as their favorite charity, and since 1954 have been raising funds for MDAC in conjunction with MDAC chapter members and numerous other voluntary workers.

Many fire departments have unbroken records of participation, and in well over 100 fire halls over the country you can find commemorative plaques marking 10 years and more of service to the cause of defeating muscular dystrophy.

C.W.L. Announce Tombola Winners

The Coleman Catholic Women's League held a successful tea and bazaar in the Catholic hall on Saturday, October 19th.

Winners of the Tombola draw: 1st, \$50 bond, Ed Wood; 2nd, \$20 cash, Bobby Proc; 3rd, \$20 cash, Anna Gibalski; 4th, casserole, Mrs. Myrtle Tareen.

Grocery hampers: 1st, Norman LeCrox; 2nd, Lorraine Aikla. Centre piece: Garry Montalbetti. Electric kettle, Irene Reno, Blairmore.

There are 30 sub-species of white tail deer in North America.

On The Educational Scene

(ARTICLE 3)

This week our topic is the aims and objectives of the new centralized high school in the Crow's Nest Pass. In order to describe the advantages of the school, we will devote most of the article to the plans for the educational program that will be offered in your new school.

Please contact the School Board office in Blairmore, phone 562-2588 if you desire further information.

Objectives of the Proposed Composite High School:

- 1-To provide adequate education opportunities to high school and adult students in the area.
- 2-To provide educational programs suited to the interests, abilities and needs of all students.
- 3-To assist students to gain a level of education or training to prepare them for further education or for employment.
- 4-To establish as far as possible a composite high school that will provide general education and training in business education as well as a complete high school academic program.
- 5-To provide training in business education to prepare students for employment in Alberta and Canada.
- 6-To provide facilities and educational programs for the training of adults and unemployed during regular and shorter terms of instruction.
- 7-To reduce the drop-out rate from the high schools by providing adequate guidance and suitable instructional program.
- 8-To assist all students to develop their abilities and interests to the maximum of their capacity.

capacity.

- 9-To guarantee a maximum return for the education tax dollar by establishing a school plant sufficiently large to operate on a basis economically and educationally sound.

Specific Advantages of the Proposed School:

- 1-Full matriculation program for those students who intend to enter university or other institutions of higher learning, including a wide range of optional courses.
- 2-Full business and commercial program for those students who will be taking further training in these fields or who will be entering employment at the end of high school.
- 3-Possibility of obtaining staff members who are specialized in the various subject areas.
- 4-Better physical facilities to support the instructional programs.
- 5-A modern school plant with modern equipment that will provide the type of education required in this modern age.
- 6-Economic advantage of school operation with standard classroom enrollments.
- 7-Full program in home economics and industrial arts within the one school plant.
- 8-A modern, well equipped library that will be the heart of the school program.
- 9-Adequate administrative and counselling space and staff to provide the direction and guidance required by the student body.
- 10-Full program in physical education as a result of the two-station gymnasium.
- 11-Modern facilities for music instruction, band instruction and dramatics within the school plant.

plant.

Academic Program:

In our plans for the new high school a complete academic program has been considered for all grades so that students can gain credits towards a high school diploma or a senior matriculation standing and thus be prepared for university entrance upon completion of grade 12. During the past 10 years there has been an increasing demand for a wider variety of courses in one subject field as evidenced by the development in English:

GRADE X - English 10, English 13, Literature 11, Reading 10.
 GRADE XI - English 20, English 23, Language 21, Language 22, Literature 21.

GRADE XII - English 30, English 36, English 33.

These are five credit and three credit courses and illustrate the wide variety of courses that can be offered in the high school program. Another example of the increasing number of subject choices open to high school students, in a high school that is sufficiently staffed to offer the courses, is in the mathematics field:

GRADE X - Mathematics 10, Mathematics 11, Mathematics 12, Mathematics 14, Mathematics 15.

GRADE XI - Mathematics 20, Mathematics 21, Mathematics 25.

GRADE XII - Mathematics 30, Mathematics 36, Mathematics 31, Mathematics 32, Mathematics, 31-36.

In the sciences, foreign languages, music and art and other subject areas, there has been a similar trend to increase the course offerings. This has created a demand for new staff and facilities, and has provided a more comprehensive high school program for the young student of today.

During the last year, changes have been made in regard to adult students and the following provisions for adults seeking to improve their educational standing are now in effect.

"(a) An adult is a person who:
 1.-Holds a high school diploma or
 2.-Is 18 years of age or over and has left school.

* Any question as to "adult" status in individual cases will be determined by the Special Cases Committee of the Department of Education.

As a result of the changes in adult regulations and the increasing number of academic courses offered in our schools, we plan to offer a more comprehensive high school program in the new school that will meet the needs of regular high school students and adult students in this area.

Business Education:

The new school will have a vocational program consisting of:
 Bookkeeping and Accounting.
 Business Machines.
 Office Practice.
 Shorthand.
 Record Keeping and Business Fundamentals.
 Merchandising and Clerical

Practice.

Manual and Electric Typing.
 Through this vocational business education training we would be able to offer a program designed to prepare students for a specific group of office and business positions. A secretarial program would prepare students for work as a stenographer, secretary, or any position in an office. Graduates from this program should be prepared to assume responsible positions in the business world. A business education program as contemplated would be suitable for boys as well as girls and would assist the student in finding worthwhile permanent employment upon graduation.

Industrial Arts:

Our program in industrial arts will be expanded in the new school to offer such courses as:

GRADE X - Industrial Arts 10, Graphic Arts 10, Drafting 10.

GRADE XI - Industrial Arts 20, Graphic Arts 22.

GRADE XII - Industrial Arts 30.

We had hoped to have sufficient space granted so that we could offer Automotive 12, Automotive 22, and other industrial arts vocational courses but this space was not given to the school. The program that is planned is more comprehensive than we are able to offer in the present high schools.

Home Economics:

The School Board originally requested a two-station home economics area for the new school, but we were granted a one-station area. The plan in this area and the industrial arts area is to build a mezzanine floor space that will allow the school to offer a wider program to the students. This would enable us to offer the following courses:

GRADE X - Fabrics and Dress 10, Foods and Nutrition 10.

GRADE XI - Fabrics and Dress 20, Foods and Nutrition 20.

GRADE XII - Fabrics and Dress 30, Foods and Nutrition 30.

Additional Programs:

The physical education program can be expanded with the floor space granted so that the two-station physical education facility can be used to the maximum, providing an athletic program for all grades.

The music program will be expanded in the new school using the amphitheatre area for choral, band and individual music practice sessions. The same space will serve the dramatics classes to a greater degree since it will be equipped with a stage, lighting equipment and work space for the classes.

There will be one room equipped for art classes.

The library area and the language laboratory will serve the program offered the students in a variety of ways and will meet the needs of the changing patterns of education today, particularly in the field of individual study and research.

Next Week:

In these reports from your School Board we have attempted to inform you of the facts about the new high school. The fourth article will be devoted to a discussion of the changing trends in education today.

Advertising...

★ ★

Modern advertising is a necessity to hold and build business. Be proud of your business, of the goods you have to sell, of the services you have to offer in your particular line. Show the progressive spirit and the desire to serve by advertising. Do not hide your light under a bushel - proclaim far and wide who you are and what you have to sell and where your place of business is, for public memory is short, and advertising is a powerful aid to all types of business. Moreover, people as a general rule shop where they are invited.

THE COLEMAN JOURNAL

The "Faceless" Children

In today's world millions of children are ill-fed, poorly clothed, and unschooled. We have never seen them: They are the "Faceless" children.

Canadians as world citizens are increasingly aware that knowledge and understanding, tolerance and compassion, are the keys to the future. UNICEF (United Nations Children's Fund) is one of these keys. Established under United Nations, it is an international effort to give every child freedom from disease and hunger, an education and opportunity to earn a living. UNICEF, participated in by 120 countries with 477 projects, is a

co-operative effort to improve the lot of the world's children. Interested governments must first request UNICEF assistance. For each UNICEF dollar from the UNICEF fund these governments provide the equivalent of \$2.50 on approved projects. This assistance is given on the basis of need regardless of political beliefs, race or creed.

At Hallowe'en time gaily dressed youngsters will come knocking at your door. For them you will have ready the traditional treats. But Canadian youngsters will feel happier if you place in their UNICEF collection boxes money for their "Faceless" friends.

Insects and disease destroy more timber in Canada than fire.

Wildlife Conservation

We have come to realize at this late date that the conservation of wildlife is as vital a subject for consideration and attention as is conservation of any other of our resources.

The Dominion of Canada is so situated that wild game is a large factor in the estimate of our national resources that it is perhaps in many great countries. A large section of this Dominion is valuable for its game and its fur-bearing resources more than for anything else.

The very abundance of animal life which once filled our forests and waters was responsible for

much of the recklessness exhibited in its destruction. We still hear references to "our inexhaustible" natural resources".

This is merely a survival of the pioneer point of view that our wildlife was so abundant that there was no need to take thought of the future. The most striking examples which will probably occur to you are those of the passenger pigeon and the buffalo.

Many people think conservation means interference with the use of something, as exemplified by the old lady, who wouldn't let her family eat good apples from the orchard, but insisted that apples had to begin to spoil before they could be used.

Persons who have conceptions of conservation such as this are naturally opposed to it. True conservation does not prohibit use, but it does mean WISE USE.

to the top three apprentices in each year of each trade.

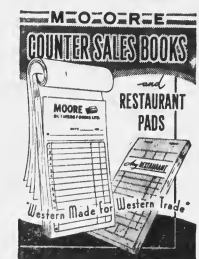

The Alberta Constructors' Association, which sponsors the award ceremonies in conjunction with the Alberta Government Department of Labor Apprenticeship Board, provides an award to the top graduating apprentice in each trade.

Southern Alberta apprentices will receive their awards at the Southern Alberta Institute of Technology, Calgary at 2 p.m. November 6; those in the north at the Northern Alberta Institute of Technology, Edmonton, at 2 p.m. November 13th.

Your Christmas dollars to The Canadian Save the Children Fund will bring joy to a child somewhere in the world. A child who needs shoes or food, a child who needs hope. Your local representative is:

SONGS OF FAITH

The Carl Tapscott Singers (12 male and eight female choristers) have returned to CBC for the summer with Songs of Faith, broadcast every Sunday afternoon on the network. Tapscott is delighted to be back and hopes many of his fans will be listening to the new show which, he says, "has something for everyone".

Top Apprentices Receives Awards

Alberta's top apprentices in 17 construction trades will receive awards at the presentation ceremonies in Calgary and Edmonton early next month.

Four trades, floor covering mechanics, glassworker, ironworker and roofer, have been added to the list of apprenticeship courses for the construction industry.

The other trades are: bricklayer, carpenter, electrician, heavy duty mechanic, lather, painter and decorator, plasterer, plumber, refrigeration mechanic, sheet metal mechanic, steamfitter, tilesetter and welder.

Most of the awards in the form of certificates, cash or plaques, are based on apprentices marks in their trade and school examinations. Others are in special categories such as "most improved" and for leadership qualities.

Construction companies, building associations, suppliers to the trade and unions are the main donors of the awards, which in general go

\$100
grows to
\$250
with
Canada Savings Bonds

\$250 for each \$100. That's what you can get with this year's Canada Savings Bonds. Here's how.

The new Bonds have fourteen regular annual interest coupons which can be cashed each year as they come due. The first pays 5.75%; the second, 6.50%; the next three, 6.75% each, and the last nine a big 7.00% each. Total regular annual interest amounts to \$95.50 on each \$100 Bond.

If you choose you may hold all these regular annual interest coupons uncashed until your Bond matures. If you do, you will then get interest on your interest totalling an additional \$54.50 on each \$100 Bond.

At maturity, therefore, you can get back total

interest of \$150 plus your original \$100 investment. This way each \$100 Canada Savings Bond becomes worth \$250. Other denominations can grow at the same exciting rate.

Adults, children, businesses and institutions—all may buy Canada Savings Bonds. They are available in convenient amounts of \$50 up to \$50,000 for cash or on instalments, wherever you work, bank or invest. And, as always, Canada Savings Bonds are cashable any time at full face value plus earned interest.

Few investments are so profitable. None builds more surely for the future. Buy Canada Savings Bonds and make your savings really grow.

Buy yours today!

...a bone boiler?

No, not a cook in a soup kitchen but a skilled artist working to present an accurate picture of Alberta's bird and animal life. "Bone boiling" is just one of the many facets of the work of Michael Hampson, taxidermist at the Provincial Museum and Archives of Alberta. The boiling comes about when a skeleton requires complete and thorough cleaning for mounting purposes. The process of bone cleaning is actually quite complicated; boiling is one of the simpler steps, this removes the flesh from the bones. The taxidermist's work also entails obtaining and mounting specimens of every living creature found in Alberta, in settings which closely resemble their natural habitats. The Provincial Museum and Archives of Alberta displays artifacts and specimens depicting the human and natural history of Alberta back to the age of the dinosaurs. It is a visual history of our province, a reminder to every Albertan of the past on which our future is constructed.

...a woman whose advice is heeded by other women?

This paragon is Mrs. Irene McGregor, Director of the Women's Cultural and Information Bureau of the Government of Alberta. Just as an example, since the passage of the new divorce bill in the federal government, her office has mailed out over 4,000 copies of the new edition of her booklet "Laws of Interest to Women", which includes a summary of the divorce laws, and every one of these in answer to a specific request. Other publications issued by the bureau include Fact Sheets on "The Landlord and the Tenant", "Working Women", "Pensions and Social Allowances", "Women on Juries", "Estate Tax Rebate Act", "Women in Canadian Politics", "Alberta Women Pioneers", "Training, Education and Upgrading for Mature Women", and "Bursaries and Scholarships". The Women's Cultural and Information Bureau has also issued a directory of women's organizations in Alberta. The list is added to weekly and hundreds of telephone calls are received and answered daily on subjects ranging from child care to legal rights.

have you ever met...

...a first-aid man for ailing communities?

When interest and participation in the life of a community begin to flag, it is time to call in an expert who is able to breathe new life into community activities. Such a man is Randall Meeks who, with his co-workers in the Rural Leadership Training and Development Branch, Extension Division, Alberta Department of Agriculture, offers a three-day course in the development of leadership skills and communication to any community which feels the need for revitalization. Arrangements for place and time are left to a local organization, with the branch providing personnel and materials for the course. Objectives include making those attending aware of new areas of learning, developing self-confidence in individuals, and the evolution of competence and efficiency in groups. By encouraging initiative and interest within the community, Rural Leadership Training is providing the opportunity for people-development.

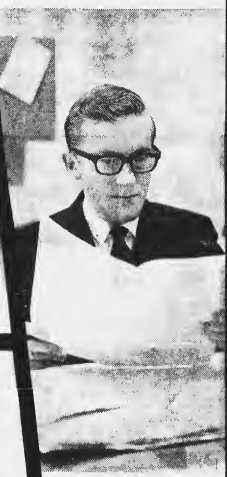

...an oil well driller who doesn't want to bring in a "gusher"?

Although he works on a full-size, fully operable drill rig, Harvey Luedtke would be a very embarrassed man if he should ever strike oil. Harvey is one of the instructors at the Petroleum Industry Training Centre where the Alberta Department of Education's Vocational Education Division offers four-week courses in the knowledge, skills and safety practices which equip men to become drilling floormen. The rig was donated by the Oilwell Drilling Contractors' Association to act as a practical classroom for future oil workers. This is just one phase of the program offered by the Vocational Education Division which also includes training in such varied occupations as heavy equipment operator, nursing orderly, survey assistant and road builder, along with English language classes for new Canadians in industry.

...a pension plan "watchdog"?

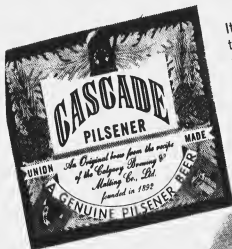

Any employer in Alberta establishing a pension plan for his company has a 50-50 chance of being assisted by Walter Alward. Walter is one of the two Analysts in the Pensions Benefits Branch, Alberta Department of Labour. Any proposed pension plan must be checked by one of these two men to ensure that it meets the requirements of the Alberta Pensions Benefits Act. Once it has been approved, the plan may then be registered with the Branch and put into operation. Among the responsibilities of the Branch is to see that employees are fully informed as to the terms and provisions of the pension plan; to make sure pension money is paid in to provide the benefits promised; and to ensure that payments received are invested properly. Employees who have a complaint may take it to the Pension Benefits Branch, which also requires a report on all pension plans each year to make sure all proper payments have been made.

...a dairy foods detective?

As a scientist in the Dairy and Food Laboratory of the Alberta Department of Agriculture, it is part of Bill Jonasson's duties to detect signs of contamination in food products. The machine into which he is injecting a purified food sample is a Gas Chromatograph, which records the amount of pesticides in foods. So sensitive is this device that it records in parts per billion, in order that not the slightest trace of pesticide may escape discovery. In addition to pesticide testing, the Alberta government's Dairy and Food Laboratory personnel carry out a continuous chemical and bacteriological testing program on milk, butter, eggs and other products, ensuring Albertans of clean, safe, pure foods produced to the highest possible standards.

CASCADE ...that's the Pilsener!

It's the brisk one... the bright one... the right one every time. This fine, brewed, flavor-aged beer combines old-time smoothness with modern brightness. So if you're asked "Which Pilsener?" there's really only one answer. CASCADE — that's the Pilsener!

CALGARY BREWING & MALTING CO., LIMITED

The Homemaker

Halloweeners:

It's Hallowe'en again! Have you been busy trying to create a costume for the children to wear to the Hallowe'en party? Or perhaps you have been wondering if you'll have enough treats when the kids come calling.

Once a pagan rite, Hallowe'en today is a fun festival of hob-goblins, witches and spooks-for-a-day. Strangely enough it was the grown-ups who initiated the "Trick or Treat" system hundreds of years ago. The children caught on fast—boys donned girls' outfits and vice versa—and complete with masks went forth with giant tote bags to play tricks and collect loot. Since then Hallowe'en customs have been most contagious.

Hallowe'en night is a night when a child's bed-time is moved back an hour or two and he is allowed the unaccustomed privilege of roaming the dark streets. Your child's costume should not endanger his safety.

Choose a light colored costume—they are a lot easier to see at night.

Make sure they are not a tripping hazard.

Almost any fabric can burn. Costumes made with flimsy material, loose-fitting sleeves, ruffles and full skirts are fire hazards.

Instruct children to stay away from flames and what they should do if clothing catches fire. Do not run. Drop to the floor immediately and wrap up in a rug or roll on the floor or ground.

Forget the mask—masks are dangerous because they restrict vision, not allowing the child to see danger in time to avoid it.

Why not let your little goblins make these miniature Orange Jack O'Lanterns to decorate your home?

Slice off top of orange. Carefully scoop out "meat" of orange (save for salads or breakfast fruit)—make cuts in orange shell for Jack O'Lantern face. Stand a small birthday candle inside orange shell, using a bit of melted candle wax to hold in place.

For those ladies who may be interested, I'll be running a Food Catering Workshop on October 30 beginning at 10 a.m. and running until 4:30 p.m. This is a great opportunity for those of you involved with church or social organizations who put on suppers or banquets to obtain first-hand information on the topic as well as making them a more profitable project. Everyone is welcome. The course is to be held in the Claresholm United Church Hall.

RCMP To Train As Defensive Driving Course Instructors

Royal Canadian Mounted Police men from many Alberta detachments will soon be joining the Alberta Safety Council's course of instructors for the Defensive Driving Course.

Superintendent W. G. Pritchett, "K" Division RCMP (Edmonton), has pledged his full support for DDC in Alberta. His plans are that members of the force will be trained to instruct civilian DDC classes within the areas served by local detachments.

Entry of the force into the DDC program has been hailed by Alberta Safety Council President Ralph Couper as an important milestone for traffic safety in this province.

"This is a first for Alberta where DDC is concerned," said Mr. Couper. "We heartily welcome participation by the RCMP in this program, and we are very pleased to have this expression of support from Superintendent Pritchett. We believe it will add considerably to the prestige the Defensive Driving Course already has in Alberta," Mr. Couper stated.

"But in a practical sense," he added, "this decision is even more important. It means DDC will have a splendid new corps of instructors to draw upon in the very places we need them most, our rural areas and smaller towns throughout the province," said Mr. Couper.

"It marks the beginning of a very important mile for DDC in Alberta," he concluded. The first two in a series of special instructor development schools for RCMP personnel will be held simultaneously by the Safety

Council in Edmonton and Calgary, October 17 and 18, 1968. These first schools will draw candidate instructors from detachments outside Edmonton and Calgary.

It is expected that the initial schools will prepare about 30 or 35 men for their roles in the DDC program. Civilian courses instructed by them will be held in conjunction with the Alberta Safety Council and local sponsoring organizations.

Alberta 1967, A Year of Big Fire Losses

(By A. E. Bridges, Alberta Fire Commissioner)

We have still another reason to remember Canada's Centennial Year: It coincides with Alberta's largest fire loss year to date. We must conclude that it was a bad fire loss year but it is also important to know where it is bad and why.

One common method of evaluation is to compare yearly fire losses with the five-year average.

When we do that, we discover that Alberta's 1967 fire losses were 44 per cent higher than the average loss for the past five years.

Each municipality will now be examining its fire loss records to see what properties and in what areas the high fire losses occurred. If we are looking for a way of improving and making our community safer, we must consider which of the fires is preventable and by what means so that where the cause is known we can require added precautions for other similar locations, processes or equipment. We find in 1967 that of nine of the largest fires, two were caused by careless smoking, two from faulty heating equipment, one from mechanical failure of an oil pump and one from a gasoline spill and three were undetermined.

It will be difficult to eliminate careless smoking—therefore, it is necessary to build in more protection against these dangerous fire starters.

In other words, more time must be spent supervising the places where careless smoking can cause fires. Although we can't guarantee that heating equipment will continue to work safely and efficiently after several years of operation, still we can check it more frequently and watch it more closely. Similarly, with processing petroleum products or operating machinery using gasoline or other volatile flammable liquids, there is again a demonstrated need for extraordinary inspections and safety precautions.

The whole thing boils down to time and money. Improvement of the fire losses will result if more man hours and more money is spent on inspections, repairs and supervision. A most important part of this includes automatic fire detection safety patrols and watchman services. I find that fire prevention is being neglected and that fire prevention does definitely demand more time and attention, especially in high value buildings.

So that a deaf Jamaican boy may learn to speak, a crippled Greek girl may learn to walk and a Korean baby may recover from tuberculosis, The Canadian Save the Children Fund needs your help. Please buy their Christmas cards.

Does the Best Man ever win?

Well, your buddy is getting married and wants you for best man. Isn't that great? Sure. Just one or two little things... like the wedding will be in another city, and you'll have to rent a dinner jacket, and you'd like to go.

Moments like this, you're a wise man if you can take advantage of complete banking service at the Commerce. One account—your Chequing Account, you use for month-to-month expenses.

And the other—your Savings Account—makes sure you've kept cash on hand.

So go ahead. Call the airline. Rent the jacket. Spring for that nice chunk of Eskimo art. And have fun at the wedding. When there's cash on hand at the Commerce, the best man wins.

Keep cash on hand

Personalities IN THE NEWS

Mrs. Jack Derbyshire of Victoria, B. C., is visiting her son-in-law and daughter, Mr. and Mrs. F. H. McKay at Blairmore. Mrs. Derbyshire and her late husband resided in Coleman for approximately 46 years. After the passing of her husband she retired to Victoria, to live with her son-in-law and daughter. Mr. and Mrs. Norman Smith, Friends here wish her a happy reunion in her old surroundings.

Mr. and Mrs. J. Hanrahan of Lethbridge, attended the wedding of Mr. Leonard Cooke and Miss Donna Marie Trotz on Saturday, October 26 in the Anglican Church, Coleman.

Mr. and Mrs. Herb Legg of Creston, B. C., were week-end visitors at the home of Mr. and Mrs. T. Holstead.

Miss Vivian Alampi was a graduate of the 1963 class of nursing at St. Michael's Hospital, Lethbridge. She received her X-ray technician degree. Her parents, Mr. and Mrs. J. Alampi, attended the graduation ceremonies.

Dr. and Mrs. N. S. Misura and son of Barrie, Ont., were guests of the former's parents. Mr. and Mrs. G. Misura for the Thanksgiving holiday. Also home for the holiday was their daughter Jo-Anne, who is attending University at Edmonton. While here they visited relatives and friends and their grandmother, Mrs. G. Carmelo, who is a patient in the Crows Nest Pass Municipal Hospital.

Mr. and Mrs. Mel Cornett and Mr. and Mrs. J. Binda attended Postmasters' District meeting of the Southern zone, held at Taber on October 20th. Mr. Cornett was elected vice-president of the Southern zone and Mrs. Audrey Bateman of Bow Island was elected to the executive. Mr. Albert Bateman of Bow Island was elected vice-president of the Alberta Postmasters' Association and he will attend a convention at Ottawa this week.

Mr. and Mrs. V. DeCecco and family of Waterton Park, visited the former's parents, Mr. and Mrs. Frank DeCecco. While here they enjoyed a trip to Lethbridge.

Mr. and Mrs. S. Ryplen, Mr. and Mrs. R. Zak and Mrs. Amelia Kropinak and Dennis, attended the graduation exercises of Miss Donna Ryplen at St. Michael's School of Nursing in Lethbridge. Miss Ryplen was awarded the Elizabeth Ann Bower Award for psychiatric nursing.

Mr. and Mrs. T. Holstead attended a family reunion dinner at the home of the latter's sister and brother in law Mr. and Mrs. J. B. Fischer at the ranch in the Spring Point district.

Bride Elect Honored Oct. 21

Miss Donna Trotz was honored with a miscellaneous shower Monday, October 21st in the Coleman Elks hall.

Approximately 80 guests were in attendance.

The bride-elect entered the hall with her mother, Mrs. Laura Trotz, her sister, Dixie Trotz, and her grandmother, Mrs. M. Antil.

Mrs. Sharon Vanoni pinned Donna with a corsage and escorted her to the place of honor to the strains of the Wedding March rendered on the piano by Mrs. Penny of Coleman.

Mrs. Carol Capron pinned Mrs. Trotz with her corsage and acted as escort, while Mrs. Joan Squar-ex did the honors for Mrs. Antil and Dixie.

The evening was spent playing whist and bingo. Prizes in whist went to Mrs. Rose Lant, Coleman, 1st; Mrs. Penny, Coleman, 2nd; consolation, Mrs. Rybychuk of Natal, and Mrs. Wanda Proc, of Coleman, was the winner of the door prize.

A lovely lunch was served by the hostesses.

Miss Trotz was then presented with many useful gifts - some of which were a vacuum cleaner, pots and pans, dishes, iron, toaster, electric frying pan, bedding, etc. The guest of honor very ably thanked everyone.

Lions Bingo To Start At 7:30 p.m.
